

ATL EXEMPLARY
TEACHERS
of CHANGE
APRIL 2021

The true teachers
are those who
help us think for
ourselves

—Dr. Sarvepalli Radhakrishnan

Atal Innovation Mission would like to thank our ATL
In-charges for their hard work and dedication towards
making the ATL program a successful initiative!

FROM MISSION DIRECTORS' DESK

Every day, we at Atal Innovation Mission, NITI Aayog are committed to promoting creativity and enterprise along the entire spectrum spanning the grassroots level to the highest levels of science and technology. Everything we do is to ensure that we remain focused on developing a culture of innovation and entrepreneurship throughout our country.

At the foundation of building a strong economic culture is the investment in the innovators and entrepreneurs of our nation through financial and non-financial support, from a grassroots level to the indefinite market space. Such a vision of leadership across the global markets is however not realizable without having the support of brilliant minds of this country which includes our teachers at Atal Tinkering Labs (ATLs) and our proud Mentors.

As part of our commitment to create a pool of innovators, boost economic opportunities across the country, and make Indian youth and its innovators job providers rather than job seekers, I am today extremely proud to dedicate this handbook-Exemplary Teachers of Change (EToC) to the finest teachers of this nation who have shown an extraordinary dedication toward making our ATLs a huge success.

As a teacher myself, I know that teaching is the greatest form of giving. In the same spirit, I take this opportunity to extend my gratitude to all the ATL In-charges for their commitment to nation building, shaping and guiding young innovators on leveraging the ATLs, and helping them realize their full potential. You have not only run these ATLs efficiently but have also created and identified a pool of innovative talent for the future destiny of the nation.

Your efforts in maintaining the labs and ensuring the desired outcomes in line with our mission and vision is inspiring. The extra mile that you have walked with us in AIM's innovation journey is not only encouraging but also a great achievement for us.

Dr. Chintan Vaishnav
Mission Director Atal
Innovation Mission,
NITI Aayog

I share my deep gratitude and thank you all for your exemplary contributions and sincere dedication. Congratulations to our third cohort of EToC who have been recognized through this book. I am sure your continued dedication and efforts will inspire many other potential ATL Teachers of Change to build a new innovative India.

Continue to Inspire and Innovate as the Agents of Change.

EXEMPLARY TEACHERS OF CHANGE — (JULY – DECEMBER) 9

ABOUT THE PROGRAM

THE ATAL INNOVATION MISSION

Objective of the Mission

AIM, NITI Aayog is envisaged as an umbrella innovation organization that would play an instrumental role in alignment of innovation policies between central, state and sectoral ministries, by incentivizing the promotion of an ecosystem of innovation and entrepreneurship at various levels—higher secondary schools, higher educational and research institutions, and SME/MSME industry, corporate, and government ministerial level, by public-private partnership.

The Atal Tinkering Labs

As we have learned, you can mandate adequacy, but you cannot mandate greatness: it has to be unleashed.

—Joel Klein Joel Klein,
Vice-Chair of the Global Agenda Council on Education

We are at the cusp of a Fourth Industrial Revolution and the need for inculcating an innovative mindset within our youth is of paramount importance.

Combining the traditional teaching methodologies with today's experiential learning will be the key towards creating a unique blended education system in India. Keeping in mind the demands of the growing economy and global growth in innovation development, the Government of India, embarked on a noble mission to create an ecosystem that nurtures futuristic skills like complex problem solving, critical thinking, adaptive learning, computational skills in children, with a vision to create one million neoteric innovators, with the ATL initiative.

ATL is encouraging students and teachers to experiment, explore and follow a self-learning path, thereby empowering them to think differently about problems and develop innovative solutions, by leveraging latest technology tools including 3D printing, Internet of Things, robotics, miniaturized electronics, space technology, drone technology, technology

inspired textiles and so on. ATL is also providing other sections of the community including parents, mentors and other individuals interested in innovation to give life to their ideas. Through frequent community sessions, ATL is shaping an ecosystem wherein every individual can contribute towards finding solutions to day-to-day problems of the society and the country, henceforth creating a strong essence of national service.

Under the ATL scheme, grant-in-aid of up to Rs. 20 lakh is provided to schools selected for setting up ATL. The grant must be spent exclusively for the specified purpose within the stipulated time of a maximum period of 5 years, with Rs.10 lakh for capital expense and remaining Rs.10 lakh for operational and maintenance expenses.

As of March 2021, more than 7,000 ATLs have been established, covering 99% of all the districts and 110 Aspirational Districts of India. These labs, established in both govt. and private schools and majority in co-educational and girls' schools, are serving as community hubs of innovation, while transforming the way India learns, thinks, ideates and innovates.

CELEBRATING TEACHERS

WHY DID WE START THE MOVEMENT OF EXEMPLARY TEACHERS OF CHANGE (ETOC)?

ATL In-charges are the backbone that is driving the ATL initiative forward in their school and local community. They are the unsung heroes who deserve every bit of appreciation and encouragement from their students, the school and most importantly the ATL, AIM team at NITI Aayog.

It is for this reason that the AIM team has initiated a recognition platform for exemplary teachers across ATLs in India. These outstanding ATL in-charges will henceforth be called 'Exemplary Teachers of Change'.

PROCESS OF IDENTIFYING ETOC

The primary criteria for selection of EToC is the continuous engagement with ATL as shared via the MyATL Dashboard.

MyATL Dashboard is the online platform for schools to indicate their ATL activity, achievements, student participation, innovations created, events conducted and challenges participated.

The team monitored the schools that were regularly updating their Dashboards and announced a monthly list of Top ATLs of the month. The Teachers of Change are those ATL in-charges who have consistently ranked their schools among the Top ATLs of the month for six continuous months.*

Filling of monthly reports on MyATL Dashboard is mandatory as it is the primary way for ATL team to understand the success and performance of a particular ATL.

(Link to ATL Dashboard-<https://aim.gov.in/atl/>)

To guide you in filling monthly reports on MyATL Dashboard, we have prepared a step by step video for your assistance:

<https://www.youtube.com/watch?v=7VqU-HJwj2w&feature=youtu.be>

Further details related to MyATL Dashboard can be downloaded below)

<https://www.aim.gov.in/MyATL-User-Manual.pdf>

*Some states had no school that was consistently ranked as the top ATL for 6 months, hence schools were selected on the basis of the maximum number of times it was ranked at top ATL of the month and in case of a tie, all the ties schools were selected.

ROLE AS ETOCS

- ▶▶ The EToCs first and foremost should continue their work as ATL in-charges with the same zeal and enthusiasm
- ▶▶ Guide and motivate other in-charges by sharing your ATL experiences and best-practices.
- ▶▶ EToCs should become ambassadors for the ATL's challenges, innovation events and encourage participation from their region's ATLs
- ▶▶ Post at least one write-up/blog/video on Wall of Fame or on social media by tagging the official AIM handle every month sharing best-practices, technical knowledge and experiences.

EXEMPLARY **TEACHERS** OF CHANGE

(September 2020 – February 2021)
